ETE CONTROLS

## FOR LUXURY OUTDOOR INFRARED HEATERS

The ETE controls allow you to switch the ETE two-stage heater between high fire and low fire. The models with timers ensure that your heaters only run when they are required. All controls are equipped with a Blue LED heating indicator and a visual selection of heating stages.

The ETE control switches with timers are an excellent choice to provide comfort and fuel savings in bars or restaurants with an outdoor patio or any other sort of outdoor eatery with the flick of a switch. Extend patio season by creating the perfect comfort level to attract more customers.

CONTROLS FEATURES

Stainless steel compact design.

Ideal for ETE heaters installed in bars or restaurants with an outdoor patio, or any other sort of outdoor eatery.
